New York, Nov. 27.—The Times' Washington special says:

A prominent member of the Senate Finance Committee has announced his intention to urge upon Congress the reduction of Government taxes full one hundred millions. Nearly all the privates of the veteral

Nearly all the privates of the veteran reserve corps have voted under the late order of the War Department to leave the service, and have been mustered out. In one regiment but four men remain. A large number of the officers, however, remain in the service. Most of them are uterly incapaciated from the pursuit of their former business avocations, as found from official reports now coming to the War Department and other sources. These, of course, desire to remain in the service, and in order to make place for them in the regular army, if it shall be determined to merge the Veteran Reserves into that organization, an enrolling act is proposed to be submitted to Congress, to be enacted into a law, which will provide for the admission of the Veteran Reserve, the officers retaining their present grade or rank as near as may be, upon certificate from a board of examiners, of competency and fitness for their positions. It is understood the Secretary of War favors the plan. Captain S. L.
